

RESPONSE TO OFFICE ACTION  
DATED JANUARY 4, 2007

Appln. No. 10/792,353

- 2 -

April 2, 2007

Amendments to the Specification

(1) Please replace the paragraph on page 3, lines 21-23 as follows:

The gear mechanism has ~~two~~ two intermediate toothed wheels disposed laterally displaced apart from each other where more than one scoop channel is provided. All scoop channels are then preferably driven in common.
